| DETAILS OF OBSOLESCENCE | | | |
| <p>The demand for the low frequency leaded parts in general has fallen to a level that has made their production uneconomic and therefore a decision has been made to cease production of the formed lead versions.</p> <p>The production of the straight lead type of low frequency resonator will be reviewed at the end of 2015, depending on world demand the production of these parts may cease completely.</p> | | | |
